Under the Tunney Act, I wish to comment on the proposed Microsoft settlement.

I have worked in the computer software industry for over 20 years and I have deep concerns regarding the effectiveness of the proposed settlement. In my view and in the view of many others, the proposed settlement does little to address the issues raised in the findings of facts in this case. I urge you to seek stronger sanctions against Microsoft (up to and including structural remedies) to insure the future this industry and America's technological leadership.

Thank you.
